

3C - UNIVERSAL LIQUID CLEANER CONCENTRATE

New Formula: New advanced formulation will not mark glass.

New Fresh Fragrance: Now with fresh green apple fragrance to revitalise stale interiors.

Economic: Concentrated formula allows dilution to required strength. (See Directions for Use)

Multi Function: With so many suitable cleaning tasks 3C's is a trade-use winner. Suitable for fabrics, carpets, PVC, plastics, rubber, paintwork etc.

Simple to Use: Simply dilute to required strength and apply by trigger, sponge or low pressure spray. Now also suitable for machine use.

Safe: Non caustic, non flammable.

Environment Friendly: The surfactant(s) contained in this preparation complies (comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents.

Directions: NB. Do not use excessive strength when a more diluted solution is appropriate.

Hand Use: for fabric upholstery, dilute with up to 10 parts water.

Light Duty: eg. paintwork, floors dilute with up to 150 parts water.

Application Procedure:

HAND USE: Apply diluted solution to surface. Allow to act. Rinse off thoroughly with clean water. N.B: Unrinsed residues must not be allowed to dry out on paintwork or upholstery as these surfaces may be adversely affected.

MACHINE USE: Soil extraction carpet/fabric cleaning machines. Dilute with up to 40 parts water.

NB: Check a small inconspicuous area of the fabric/carpet for colour fastness before commencing cleaning.

Typical Specification :

Composition : A complex blend of water soluble solvents, surface active agents, sequestrants buffered alkaline salts, dye, perfume, water.

Appearance : Green liquid

pH : 12.5

S.G. : 1.02

Odour : Apple

Solubility : Soluble in water

Shelf Life : minimum 3 years in unopened containers.

Packaging : 5L, 25L, 200L plastic containers.

3C is a Registered Trade Mark of Concept Chemicals & Coatings Ltd
