# ULTRAFILL

ONE RANGE, FILLED WITH QUALITY

The ultimate range of high performance fillers, specially developed to make the process of filling easy with great pliability, easy application and superior quality. The range includes:

- Deep (3lt)
- Medium (3lt)
- Glass Fibre (1.85lt)
- Glaze (600ml)

# 4:1 PRIMER

A high quality, versatile 2K acrylic primer. It has excellent adhesion to a range of substrates including difficult plastics such as PP, PE and ABS. It offers a rapid drying time and can be applied wet on wet. A lid paddle can be added to the tin to allow for easy dosing and automatic mixing on your paint scheme.

- Available in 5L & 1.25L kits
- Available in white, black & grey

# CLEARCOAT

Our clearcoat and hardener kit offers fast drying times with excellent flow out, ideal for coating both large and small surfaces. A versatile clear lacquer, that will achieve a UV resistant, high-gloss and durable finish in just 2 coats. Available with three different hardener speeds

- Available in 7.5L & 1.5L kits
- Choice of hardener speed (Standard, Fast & Extra Fast)

# POLISH

The Generation20 award nominated polish provides the perfect finish to a job. It's been designed with our users in mind providing a high quality, high gloss shine. The polish effectively removes holograms and swirls with particular effect on dark finishes.

- VOC free Extreme Cut Compound
- Comes in convenient 1kg or 250g bottles
- Can be purchased as a starter kit for users to trial before committing

## PANELWIPE

- Premium degreaser that cuts through contaminants
- For use on bare metal & pre-painted surfaces
- Three speeds to cover every application
- Comes in 5L tins or an aerosol (fast only)

## DRYGUIDECOAT

- Fast & effective detection of scratches & surface imperfections
- Easy to hold applicator that leaves an even coating
- No masking required

## UNIVERSALTHINNERS

- High quality professional 2K solvent blend
- Suitable for 2K paints, basecoats, lacquers & primers
- Choice of three speeds
- Available in 1 Litre and 5 Litres

## PAINTROCKET

- Premium additive to reduce curing time
- Compatible with most 2K paint systems
- Increases throughput

## ANTI-SILICONE ADDITIVE

- Prevents silicone craters or fish eyes
- Comes in an easy to measure dosing bottle

## ULTRASEAL PU

- Available in black, white & grey
- Easy to extrude and tool up
- Suitable for internal & external use
- Fast over paint time

## HIGHSOLIDS STONECHIP

- Available in black, white & grey
- Great adhesion to a wide range of substrates
- Excellent resistance to weathering and abrasion
- Doesn't contain toluene, xylene methanol

## UNIVERSAL HARDENER

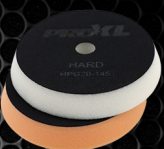

- A quality 2K hardener available in **standard, fast & extra fast**
- Suitable for 2K Clearcoats, Primers and Solid Colours
- Excellent gloss retention
