ULTRAFILL
ONE RANGE, FILLED WITH QUALITY

PRO-XL.CO.UK

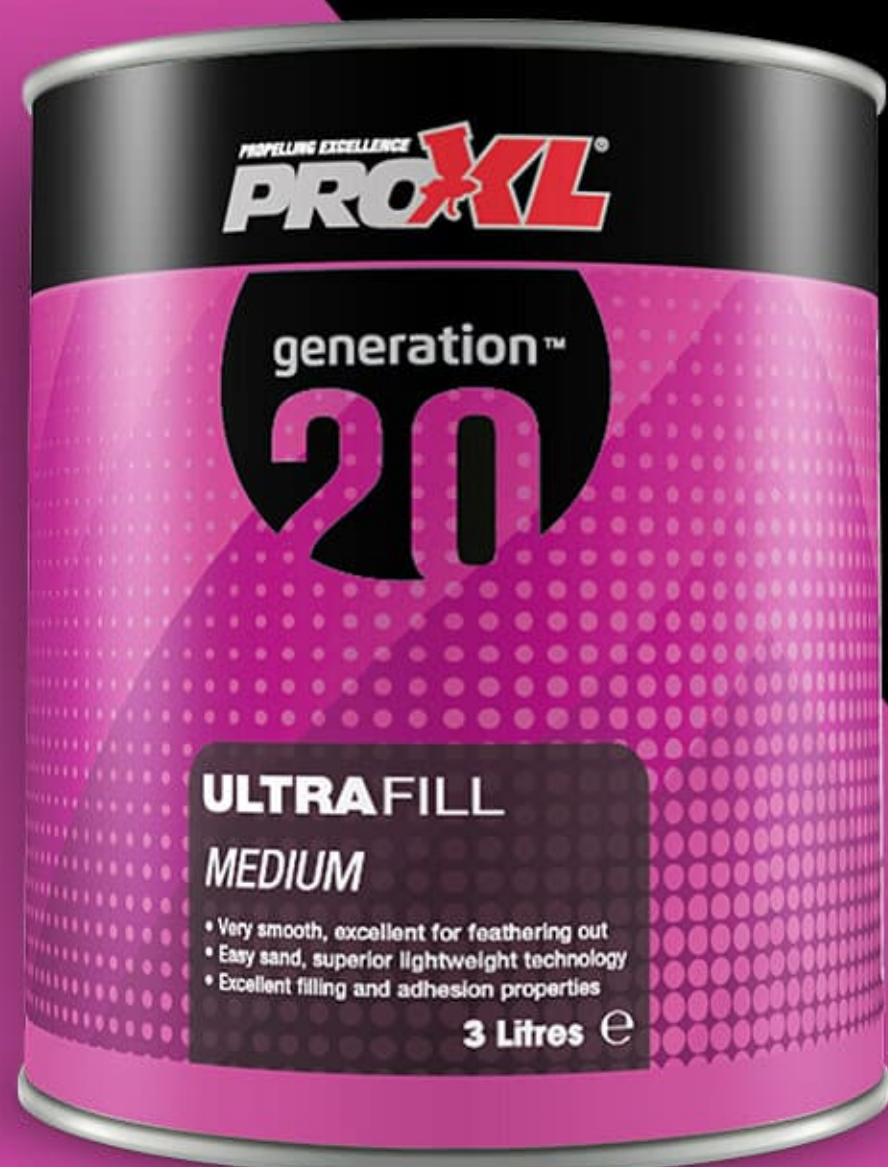

ULTRAFILL DEEP

- High performance, smooth textured, polyester filler ideal for deep repairs on heavy panel damage
- Non-sag formula – quick to spread and shape
- Provides great adhesion to common substrates
- Painless sanding process

3 Litres

Code: UFDG20-3

ULTRAFILL MEDIUM

- Superior, lightweight, multipurpose, polyester filler
- Provides a super smooth finish, making it ideal for feathering out
- Excellent filling and adhesion properties
- Superb sanding, shortening the process time

3 Litres

Code: UFMG20-3

ULTRAFILL GLASSFIBRE

- Outstanding glass-strand body filler
- Primarily used for repairing cracked or rusted panels, creating a permanent and waterproof seal
- Highly workable & easy to shape and apply
- Effortless sanding resulting in a solid foundation for the next stage of the filling process

1.85 Litres

Code: UFGFG20-1.85

ULTRAFILL GLAZE

- Easy to use, ultra smooth finishing filler
- Perfect for eliminating surface imperfections and pinholes prior to painting
- Easily sanded with light grain sandpaper

600ml

Code: UFGG20-600
